Turn off reports in EPASS

- Find your “base URL”
- EPR button: home screen and toolbar
- Force reports to run in EPR
 - Exceptions

The screenshot shows a dialog box titled "EPASS Reports Variables". It contains four settings: "Run Reports in EPASS Reports" with a checked checkbox, "Show Report Run Options" with a checked checkbox, "Token Validity in Seconds" with a text box containing "60", and "EPR Base URL" with a text box containing "https://epass.software/epassreports". There are "OK" and "Cancel" buttons on the right side of the dialog.
